ThreatOps-Detection and Reponse

STEP 1 ANSWER FLAGS HERE

<https://auscert25-edr.s1-threatops.io/>

1. Register (Top right corner)
2. Validate account – check email and spam
3. Login

Once you have logged in proceed to Step 2

The screenshot shows a registration form with fields for Name, Email, Password, and Confirm Password. There is a 'Register' button at the bottom right.

STEP 2 HUNT FOR FLAGS HERE

<https://usea1-threatops.sentinelone.net>

Username = Email Address
Password = **SentinelFun1!**

You must complete Step 1 before logging in on Step 2!

The screenshot shows a dashboard with a large blue circle in the center, indicating a hunt in progress. There are various charts and data points visible.

Pro tip: If you have 2 screens, hunt on one, answer on the other

SentinelOne
